PROFILE

Seeking a position as an IT Support Engineer to leverage my hands-on experience as a network administrator and troubleshoot hardware and software issues, while continuously improving IT infrastructure and ensuring optimal user satisfaction.

WORK EXPERIENCE

Gemcon Group. APR 2024 - PRESENT
Senior Executive, IT

Experienced IT professional responsible for managing network infrastructure (LAN, WAN, VLAN, VPN), internet connectivity, Mikrotik routers, Sophos Firewalls, and antivirus systems. Skilled in access point setup (Cisco, Cambium, Unifi), email configuration (Office 365, Icewarp), data/NAS backup, CCTV, PABX, access control systems, and IT asset management. Provides remote/on-site hardware & software support, video conferencing setup, and departmental IT assistance. Also manages domain and hosting services, and oversees web application deployment and maintenance.
