Profile

I am a passionate Full-Stack Web Application Developer with over 4 years of hands-on experience designing, developing, and maintaining dynamic web applications. My core expertise lies in PHP, Laravel, JavaScript, Vue.js, MySQL, Bootstrap, and TailwindCSS. I enjoy building clean, scalable, and high-performance systems that solve real business problems.

"I don't just write code—I build solutions that drive real impact."

Experience

- 2023 – Present**
Gemcon Group.
Software Developer
Responsible for developing and maintaining web applications, troubleshooting ERP systems, optimizing performance, building APIs, and contributing to project planning while ensuring scalability and code quality.
- 2021 – 2023**
Wardan Tech Ltd.
Software Developer
Develop and maintain full-stack web applications, craft responsive UIs, handle database design, debug technical issues, and ensure performance, usability, and team collaboration through modern development practices.
